2021 College of Medicine – Tucson Faculty Excellence Awards

The competitive awards will be acknowledged by a plaque, UAHS media coverage and monetary prize.

Please use the link provided below to submit required materials. Incomplete submissions will not be considered.

**Deadline for completed submissions is Tuesday July 27th, 2021.**

Award winners and their Department Chairs will be notified by August 4th, 2021. The awards will be presented and celebrated at the **General Faculty Town Hall on August 11th, 2021.**

**Research Awards**
These awards recognize faculty investigators at the Assistant or Associate Professor level who have demonstrated outstanding research efforts and advancement of science.

1. **Clinical Investigator Award:**
This award recognizes an investigator who writes, designs, and runs clinical trials at the College of Medicine -Tucson. The recipient is involved on a national stage for their disease/area of focus and demonstrates success in moving the field forward based on their work.

The selection of the person receiving this award will be based on the following criteria:

- Actively engaged in clinical trials, serving as site and/or national PI
- Consistently accrues open clinical trials to support COM-T’s clinical research efforts
- Is readily available to research personnel and research participants to answer questions, manage queries, and sign-off on required documentation
- Designs and runs investigator-initiated trials
- Publishes research results in high-impact journals
- Is recognized on the national or international level as a clinical research thought leader in his/her area of expertise

2. **Basic and Translational Investigator Award:**
This award recognizes an investigator who conducts research aimed at basic science and translational research discoveries or the development of patents, technology, or devices.

The selection of the person receiving this award will be based on the following criteria:

- Actively engaged in basic research supported by externally peer-reviewed funding
- OR serves as a liaison between basic researcher and the clinic to translate scientific discoveries into clinical research
To be considered for these awards, please submit the following information:
1. Personal statement and description of the impact of your work in your field (no more than one single-spaced page)
2. A bio sketch (UA vitae, CV or NIH Bio sketch are acceptable)
3. Letters of support from colleagues/division chief/department head (minimum of 1, no more than 3)

Please submit all materials here: https://uarizona.co1.qualtrics.com/jfe/form/SV_0NRYWh0NvEUUyiy

Submissions will be reviewed Dean’s Research Council and final approval will be made by the Vice Dean of Research and Graduate Studies and Associate Dean of Clinical and Translational Research.
