

THE UNIVERSITY OF ARIZONA

College of Medicine

Tucson

# Research Updates

Presented by Rachna Shroff, MD

# Research Vision

- Developing interdependent, transdisciplinary collaborative research
  - Delivering high-quality clinical trials to the Tucson community
  - Enhancing basic and translational biomedical research
  - Coalescing graduate student and physician-scientist training into an inclusive community that enhances diversity and contributes to a highly skilled workforce equipped with cutting-edge training in data acquisition/analysis and with the ability to interconnect knowledge across scientific disciplines.
- 

# Research Affairs Team
